CORE COMPETENCIES

Scalable Web Applications	
User Experience Design	
Agile Development Methodologies	
Software Development Life Cycle	
Cross-Functional Team Collaboration	
API Development and Integration	
Cloud Computing	
Data Management	
Responsive Web Design	
Performance Tuning	

EDUCATION

Odisha University of Technology and Research
Bachelor of Technology
2019 –2023 | CGPA: 8.47

AWARDS

Winner — Company Hackathon (Meta Quest 2 VR Game Development)
Developed a 3D shooter game using A-Frame.js (built on Three.js) for the Meta Quest 2 VR platform, securing 1st place among competing teams.

TECHNICAL SKILLS

Front-end: React.js, Next.js, Three.js, A-Frame.js, HTML, CSS, JavaScript
Back-end: Node.js, Express.js, Nest.js, REST API, GraphQL, JWT, OAuth2
Databases & ORM: PostgreSQL, MongoDB, Prisma, Mongoose
Architecture & Design Patterns: Microservices, Microfrontends
Cloud & DevOps: AWS, Vercel, CI/CD, Git, GitHub, Bitbucket, Jira

PROFILE SUMMARY

- Over 2 years of full stack development experience**, specializing in building and optimizing scalable web applications using React, Next.js, Node.js, and GraphQL, with proven skills in modernizing legacy systems to enhance performance and maintainability.
- Successfully led multiple projects at Itobuz Technologies**, considerably improving application responsiveness, reducing load times, and boosting user engagement through advanced UI/UX strategies and state management solutions.
- Showcased strong collaboration and leadership skills by working closely with cross-functional teams to deliver innovative**, high-quality software solutions aligned with client requirements and industry best practices.
- Proficient in microservices architecture and multiple programming languages**, including Node.js and Nest.js, enabling the development of modular, maintainable, and scalable applications.
- Committed to continuous professional growth by staying updated with emerging technologies and trends**, consistently applying cutting-edge solutions to drive efficiency, user satisfaction, and business impact.

WORK EXPERIENCE

Full Stack Software Developer

Itobuz Technologies, Kolkata | Jul 2023 – Jul 2025

Highlights:

Snap E-Cabs (Electric Vehicle-based Cab Service Company)

- Successfully migrated the admin dashboard from PHP to React, considerably enhancing maintainability and improving UI responsiveness.
- Integrated Redux Toolkit for efficient state management alongside React Hook Form and Zod, ensuring robust and scalable form validation.
- Implemented API response caching, resulting in a 25% reduction in server load and a 40% improvement in data retrieval speed.
- Optimized UI rendering for large datasets, reducing query load times from 6 seconds to 2 seconds, enhancing overall user experience.

Jobbora (Job Portal Website)

- Developed a fully responsive job portal from the ground up using React, Redux Toolkit, and GraphQL (Apollo), delivering a seamless user experience.
- Designed complex, step-wise progressive forms that reduced user drop-off rates by 30%, improving lead conversion considerably.
- Utilized useQuery and useMutation hooks to enable efficient and effective GraphQL operations.
- Architected a scalable system facilitating easy future enhancements and expansions.

DesignStudio (Lead Generation Platform)

- Led UX optimization initiatives that improved conversion rates by 15% through strategic enhancements to user flows.
- Designed a responsive and credible UI, increasing average session duration by 20%, thereby enhancing user engagement.
- Created intelligent form experiences that attracted qualified leads while minimizing spam submissions.
- Website: <https://www.designstudiouiux.com/>

Internship

- Gained hands-on experience with MERN stack development, contributing to the building of full stack web applications.
